Planning Board
Town of Candia
74 High St.
Candia, NH 03034

Dear Planning Board Members:

This letter is to inform the Town of Candia that Eversource will be trimming and removing trees and brush near our power lines within the town. This work is necessary to ensure the safe distribution of power and to maintain reliability of electric service for our customers.

According to Eversource records, the following roads have been designated as a scenic road by the Town: Adams Rd, Critchet Rd, Crowley Rd, New Boston Rd. and North Rd. Please consider this letter to be a request from Eversource for a public hearing for the purpose of the trimming and removing trees on these scenic roads within the proposed work area pursuant to RSA 231:158. Please inform this office of the date, time, and place of said meeting so that we may have a representative present.

Eversource specifications call for removal of brush and limbs less than four inches in diameter which are located within eight feet to the side of, ten feet below or fifteen feet above conductors. Larger limbs, or whole trees, which present a threat to Eversource lines or other equipment because of decay or other defects will be removed on a case-by-case basis. All work will be performed in accordance with accepted arboricultural standards.

Eversource has contracted with Lucas Tree Experts to perform the actual trimming of trees. Eversource requires that our trimming contractors contact each landowner where trees are to be trimmed prior to commencement of work on that property. Individual concerns will be addressed at this time. Work on those roads not designated as scenic may have already begun. The work is expected to take the remainder of the year to complete.

If you have any questions or comments, please feel free to contact me, by:

Andrew King

PO Box 330

Manchester, NH 03105

Email: andrew.king@eversource.com.
