PLACES OF ASSEMBLY

1. Means of egress shall be kept clear at all times. Seating areas shall be maintained with minimum aisle widths.
2. Exit signs and emergency lighting shall be operational and provided with 90 minutes of emergency power.
3. Exits shall be unlocked, operable and free from locks, padlocks, or bolting devices.
4. All exits, exit doors, corridors, hallways and stairways shall be free of obstructions. Panic and/or emergency egress hardware shall be operable at all times without a key, tool or special knowledge.
5. No open flames or pyrotechnics shall be permitted. Requires a separate permit.
6. Decorative items shall not obstruct fire and life safety systems.
7. Address for the building and/or suite number shall be visible from the street side of the building and rear door.
8. Fire lanes shall be kept clear and striped.
9. Current keys for building and/or suite shall be located in the Knox Box. Notification of key changes shall be made within 72 hours to the Fire Marshal's Office.
10. An updated emergency contact list is provided to the fire marshal's office when information changes. Notification of contact changes shall be made within 72 hours to the Building Department.
11. Occupant load shall be clearly posted on a permanent approved sign and located near the main entrance.
12. Portable fire extinguishers shall be provided and be readily accessible and unobstructed from view.
13. Kitchen hood fire suppression system shall be inspected every 6 months.
14. Kitchen hood ventilation system shall be cleaned a minimum of every 6 months.
15. All fire protection systems, including the kitchen hood fire suppression system, fire sprinkler system and fire alarm system, *as applicable*, shall be tagged and operational at all times and not be obstructed or otherwise impaired.
16. All electrical, fire alarm, fire suppression and mechanical rooms shall be labeled and free of storage.
17. Electrical panels shall have a minimum 36 inch clearance.
18. Extension cords shall not be used; only listed power strips with circuit breakers are acceptable.
19. An evacuation / safety plan shall be on site and staff must be trained.

Above list is not all-inclusive and is provided for information and guidance only.
