**REPORT OF THE**  
**CANDIA VOLUNTEER FIRE DEPARTMENT**

In 1975 the Candia Volunteer Fire Department achieved a full roster of 46 regular members. The regular membership is complemented by 20 associate members at present.

With volunteer help, construction of the new addition to the fire house started in July and approximately 85% completed by December. The addition provides housing for added equipment.

Arrival of the new fire truck in December improved the Department's capability to respond to the growing fire protection needs of Candia.

We responded to 28 fire calls in 1975, an increase over 1974, but compared to other towns in the surrounding area we were very fortunate. We wish to thank residents of Candia for their cooperation in the prevention of fires.

The Department had a very successful Fourth of July

Celebration and firemen's muster. This was possible only through your support.

We are looking forward to your continued support during our country's Bicentennial Year of 1976.

DAVID J. CARON

*President*

Candia Vol. Fire Department

**1975**

**REPORT OF THE POLICE CHIEF**

This department received and acted upon 1,491 calls in 1975.

The police of our town has one of the most sensitive and complex responsibility in our entire system of government. Our mandate, always in critical democratic balance, is to preserve social order while, at the same time, guaranteeing essential individual freedom and values. Translated into daily activities, the police officer must reduce crime. In a small town such as ours, we constantly seek the cooperation of the townspeople to help by keeping their eyes and ears open to unusual and suspicious persons or actions, and report them to this department immediately, which could cause the apprehension of criminals, but always in accord with due process principles, the timely and equitable administrations of justice.

I am extremely concerned about recent developments in this country which have imposed new and dangerous burdens on our local police. Harassment and outright attacks against the police, in many instances by subversives and criminals, have increased alarmingly. Court decisions have placed unreasonable restrictions on the forces of law and order, while freeing many criminals from prison and imposing only the mildest of sentences on others. It is for these reasons that there is an organization called "SUPPORT YOUR LOCAL POLICE." I urge all responsible citizens in this community to work with us, as in the past, and accept their responsibility to the local police, to

defend them against unjust attacks, make them proud and secure in their vital profession, and to offer them your support in word and deed whenever possible.

A policeman stands between the law abider and the law breaker. Try to imagine what would happen if there were no policemen around, then try to think of ways to make their job more rewarding, show them the respect they should really have. His job may sometimes seem routine, but the interruptions can be moments of terror. He's the man who faces the half-crazed gunman, who rescues a lost or injured child, who challenges a mob, and who risks his neck more often than you realize. He deserves your respect and profound thanks.

In closing I would like to give my sincere thanks to the citizens in our town for their support and cooperation in the past year. I would like to thank and commend my fellow officers for their many hours devoted to this department, I would also like to extend my thanks to the Raymond Ambulance for their excellent services to this department in 1975.

Respectfully submitted,  
 ROBERT A. BAKER, SR.

## REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

Upon the recommendation of town selectmen and city councils, the Division of Forests and Lands appoints a forest fire warden and several deputy forest fire wardens in each town and city every three years. The town or city warden is responsible for maintaining a force of men and adequate equipment to suppress any wildfire that occurs in his town or city during his term of appointment. The fire warden must authorize all open burning when the ground is not covered with snow. No open fires can be authorized between 9 a.m. and 5 p.m., unless it is raining, without the additional permission of the state district fire chief.

Any person wishing to kindle an open fire when the ground is not covered with snow must first obtain the written permission of the forest fire warden. Camp and cooking fires also require the warden's permission.

The Division of Forests and Lands, through its Forest Fire Service, assist all cities and towns in meeting these requirements by training the warden and deputy forces in wildfire suppression tactics, making hand tool suppression equipment available at fifty percent of cost, supplying pieces of Federal excess property for use as fire attack vehicles and sharing up to fifty percent of the cost of wildfire suppression costs.

Wildfire prevention is also a joint state, city or town program. Smokey Bear is available from the Forest Fire Service for local fire prevention programs. Posters and Junior Ranger kits are available for distribution by local fire departments upon request to the Forest Fire Service. Each forest fire warden is expected to carry on a continuous wildfire prevention program within his town or city.

**ANNUAL REPORT OF THE  
CANDIA CONSERVATION COMMISSION**

The Candia Conservation Commission has continued work on the 40 acre tract of land on New Boston Road, which is under the control of the Commission. The bridge across the brook has been repaired and all the plant specimens have been mounted, for use by any interested Candia people. The Commission also has a detailed map of all wet soil conditions in town. To our surprise no use was made of it during the recent revaluation of the land in town.

The Commission is introducing into the Warrant this year two Articles for Scenic Roads under RSA 253:17-18. We have picked two Class 6 roads that do not have any developments on them. The land owners along these roads for the most part are favorable to designating them Scenic. They feel that by protecting the trees and walks along these roads they will be protecting and enhancing the scenic beauty of Candia. Designating a Road Scenic does not prevent work on the road nor do you lose TRA funding either. What it does do, is enable the people of Candia to have a voice in how their roads should look; big, wide, treeless roads or adequate wall lined and tree lined roads. In some sections of town, trees may be removed to open up vistas of surrounding hills, etc. This will be a small start in what we hope will be a continuing effort to keep the rural charm of Candia intact.

## SUPERINTENDENT'S REPORT

The format of my report for the 1974-75 school year, in conjunction with the Chairman of SERESC is more specific in nature and has a direct bearing upon the community of Candia as well as other communities within the State.

It is our responsibility to help the handicapped. Moreover, it is required by state law. In New Hampshire, there is inadequate state money needed to do the job for these 'special needs pupils' whether they live in poorer or wealthier towns. This puts local school boards in a "bind": its moral and legal responsibility to provide vs. its ability to do so.

What is required by the law and can we possibly comply with it?

The law applies to handicapped children from birth to age 21.

Handicapped conditions are those which reduce a person's capacity for education or ultimate self support. They fall into the areas of *physical, intellectual and emotional*.

These categories are not necessarily distinct, they may overlap and blend into each other. Each child's 'special need' is somewhat different and often involved help from a number of supplemental personnel and special education teachers — requiring a team effort from 'multi-disciplines.'

The law places particular responsibility upon schools to protect the rights of pupils and parents through fair and regular evaluation of pupils, parent permission prior to any special change in placement or program and process by which decisions may be appealed.

All in all, these are heavy legal requirements added to our moral responsibility and, except for foresight, planning and steps already taken, we might be totally unready and inadequate to the task.

Two years ago, eight school superintendents, including myself, began meeting with Arthur Jillette, of the State Department of Education, Special Education Section. Recognizing the

unmet needs of many handicapped children, and in anticipation of the new law, they concluded that the best way to attempt to meet the challenge was through a joint effort.

Seven superintendents, with a planning grant, formed a non-profit corp. called the Southeastern Regional Education Service Center (SERESC) of which they and seven school board members were the Board of Directors. It has been my privilege to have Mr. Hughin Holt as representative of Supervisory Union #15 -- Raymond -- serve as Chairman of SERESC's Board of Directors.

The top priority for this year would be to provide extended testing services to schools through referral to SERESC. Representatives of most of the member school districts met periodically during the year and the summer, to develop comprehensive processes for the referral, evaluation and placement of pupils which were in compliance with the complex federal laws and state guidelines.

At the present, staff members from the various SERESC areas who have responsibility for coordinating special education programs are meeting periodically to plan for the next phase of SERESC's operations beginning next September. An effort will be made to develop more and better special education programming within the many SERESC school districts. Many pupils who do not now have adequate special help will then receive it in their own or a nearby school district. A number of children who are now attending special schools away from their homes will be brought back into new programs in the area.

Using Federal Funds channeled through the state and SERESC there will be a concerted effort to find pre-schoolers, who need service. If we are to maximize the opportunities for these children to lead the best and most productive lives possible we must intervene and get the best help to them at an early age.

In my opinion, the District of Candia has taken significant stride in the solution of problems faced by the handicapped child and his parent.

Respectfully submitted,  
David R. Cawley,
