Candia, NH 03034

RE: Recommendation for new Cemetery Trustee

Dear Selectmen,

The Candia Cemetery Trustees voted at our June 2017 meeting to recommend as a replacement Trustee for Michael Pouliot and for his remain two years, Lorraine Meuse, a resident of our town.

Lorraine placed an interest in joining the Trustees at our May 2017 meeting and came with her interest letter to our June 2017 meeting. We voted unanimously to place this recommendation to you. She is eager to get started.

We ask that you consider her at your next meeting so she may begin as soon as possible.

Best regards,

A handwritten signature in cursive script that reads "Holly Haas".

Attn: Board of Selectmen  
Town of Candia, NH  
74 High Street  
Candia, NH 03034

Dear Board of Selectmen,

First, I would like to introduce myself. My name is Lorraine Meuse of 315 High Street, Candia. I am writing this letter of interest as I am seeking to fill the vacancy on the Cemetery Trustee committee. I have been a Candia resident for 29 years and consider Candia a wonderful community.

While I have never held a position on any town boards or committees, I think it is important for citizen participation and involvement in town matters.

I want to protect the character of our town cemeteries, while at the same time ensuring the proper degree of rules and regulations to ensure aesthetic value, compliance with local and state regulations and to provide families with assurance that the cemeteries are valued.

From what I have observed over the years, the Candia cemeteries that I have visited are well maintained and exhibit pride in the community.

Respectfully submitted,

Lorraine Meuse

Carla Penfield

Chairman

Board of Trustees

Smyth Memorial Building

Candia Select Board

Candia NH

The Board of Trustees of the Smyth Memorial Building would like to have Linda Maxwell appointed to the Board of Trustees for a 5 year term. Ms. Maxwell was originally appointed to the Board of Trustees by the Candia Select Board. Her initial term was for three years. Her appointment would offer continuity to the board and her expertise is greatly appreciated.

Carla Penfield

  
Chairman

**Subject: Gasoline-related testing of water supply well at:**  
«ADDRESS», «TOWN», NH

Dear Property Owner,

A review of New Hampshire Department of Environmental Services (NHDES) records indicates a property you own may be served by a well located near an area that is potentially vulnerable to gasoline contamination. **NHDES does not know whether gasoline components, such as methyl tertiary butyl ether (MtBE) have impacted your well.** Laboratory analysis of your drinking water is the only way to find out.

The purpose of this letter is to ensure that you are aware of the potential for contamination and invite you to participate in a NHDES well sampling program. NHDES will collect a sample and provide you with a copy of the results. This work will be performed **at no cost to you**. If concentrations of MtBE are determined to be above the health-based drinking water standard, NHDES may also pay for the costs associated with installing and maintaining a treatment system or provide you with an alternative source of drinking water. NHDES is able to perform this work at no cost due to a MtBE settlement fund collected from a lawsuit pursued against refineries and gasoline manufacturers. More information may be obtained from our website at:

<http://des.nh.gov/organization/divisions/waste/mtbe/index.htm>

NHDES recommends that all well owners have their water tested in order to understand common problems with drinking water quality. Due to settlement fund restrictions, NHDES can only pay for a MtBE-related (VOC) analysis, which also includes other common gasoline and chemical contaminants (\$120 value). However, NHDES can collect any other samples that you would like to have analyzed and deliver them to the laboratory along with the VOC sample. If you elect to have additional analyses added, you will need to pay for those analyses.

If you would like to have your well sampled by NHDES please contact Tina Clark at (603) 271-7174 or send an email to [Tina.Clark@des.nh.gov](mailto:Tina.Clark@des.nh.gov) to set up an appointment. If you have any questions about the sampling program please don't hesitate to contact me at (603) 271-8483 or [Deborah.Loislle@des.nh.gov](mailto:Deborah.Loislle@des.nh.gov). Thank you for your time.

Sincerely,

Deborah Loiselle  
Sampling Program Supervisor / MtBE Remediation Bureau

**SUBJECT:** Understanding to develop Purchase Agreement between Town of Candia and Wildcat Land Development Services, LLC (WLDS) for purchase of town owned raw land by WLDS defined as Town of Candia Tax Map 410, Lot No. 162 (9.549 Acres), Lot No. 162-1 (2.235 Acres), and Lot No. 161 (0.961 Acres).

**Purchase Agreement would include the following 3 yr. options:**

*Option A: \$225K Option to Purchase Land (where WLDS or WLDS User secures all local (including but not limited to timber clearing, planning, zoning, conservation and building permits), state and federal permits that are required for building(s) with up to 30,000 sf of footprint area.*

*Option B: \$375K Option to Purchase land (where WLDS or WLDS User gets all local (including but not limited to timber clearing, planning, zoning, conservation and building permits), state and federal permits that are required for building(s) with over 30,000 sf of footprint area.*

**Specific Conditions for Purchase Agreement shall include:**

1. Town provides WLDS all rights to: access property, conduct investigations, timber rights, permit, survey, engineer, market and all other tasks associated with the development/construction of property.
2. 3 yr. Options automatically extend on annual basis if WLDS is still in an active mode of the permitting process.
3. WLDS pays annual land taxes based on land values on the Candia Property Tax Cards for these Properties prorated for an estimated usable 7 acres of the total raw land (defined above) during option period. *option fee first three years*
4. WLDS is required to make full payment to Town for the land purchase at time of issuance of a Candia Building Permit issued to WLDS or WLDS User.
5. WLDS shall provide Town with prepared engineering plans by WLDS if WLDS does not purchase land at end of option period(s).

*Industrial  
use*
