

Unapproved
Candia Recycling/Energy Committee
Public Meeting Minutes
September 22, 2016

Attendance:

Cinny Griswold, Clay Caddy, Al Couch, Facility Operator Chuck Whitcher, and Recycling Center BOS Representative Russ Dann.

Recycling Center literature was discussed. Based on previous discussions, we reached the conclusion that two separate literature pieces should be created- one would be a simplified "quick reference" flyer, and the other would be a brochure that would give complete information about recycling programs, a list of all items accepted, and would also communicate the importance of recycling in more detail.

There was discussion on how to encourage more people to attend committee meetings, and also on the scope of the committee, and some ideas on what should be covered for the energy aspects. It was suggested that a request for additional committee volunteers be posted on the web site, and on signs at the town office and at the Center.

As part of the energy discussion, it was suggested that were things that could be considered for the Recycling Center to save energy, such as more efficient lighting and the installation of solar panels.

Chuck noted that the interiors signs need to be done over. The existing signs are in tough shape- new ones need to be made up with revisions to the wording. This should be a priority item.

Copies of the Solid Waste ordinances were handed out. Everyone will look them over and then it will be reviewed for possible changes at the next meeting. In addition, it was decided that we also need to review and suggest any changes to the schedule of fines imposed on people not following the regulations.

Discussion took place on setting up a priority list. Chuck and Al to work on this and submit at the next meeting.

Clay said that he would be away for a couple of months, so would not be attending the next couple of meetings. Al was chosen as the interim Chairman.

The meeting was adjourned at 8:00 pm.

Respectfully submitted,

Al Couch
Committee Member
