Candia Police and Fire Departments Respond to Vehicle Fire on Raymond Road

On October 18, 2025, at approximately 6:25 a.m., Candia Police and Fire Departments were dispatched to 134 Raymond Road for a report of a vehicle fire at the Copart facility.

Multiple callers reported visible flames and heavy black smoke coming from the lot. Upon arrival, responding units confirmed a vehicle fully involved in fire. Crews from Candia Fire, with assistance from Raymond Fire Department and Auburn Fire Department, quickly worked to extinguish the blaze.

The fire was contained to the immediate area, preventing further spread to surrounding vehicles. No injuries were reported.

The New Hampshire State Police also responded and assisted at the scene. The cause of the fire remains under investigation, though initial indications suggest it was limited to a single vehicle within the lot.

The Candia Police Department thanks all responding agencies for their quick and coordinated response, which ensured the safety of personnel and minimized property damage.

Thank you,
Chad P Shevlin, Chief
Candia Police Department
